414 Single Bowl Sink

Fireclay

Our Fireclay sinks are both durable and elegant. The timeless vintage inspired apron style is reversible; fluted on one side and smooth on the other. Our bowl configurations offer modern functionality and classic beauty. Fireclay by nature is rust-proof and heat resistant, as well as chip, scratch, and stain resistant. Fireclay composition also reduces sink noises to a minimum. Bringing you the latest in style without the higher cost of competitor's models.
