KITCHEN + BATH

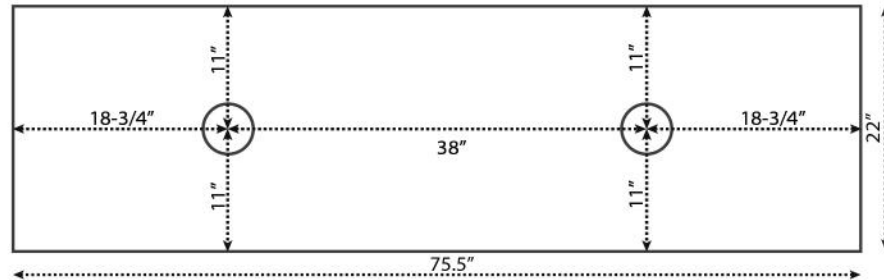

Custom Black Stainless Steel Kitchen Sink Grid Set

Our mutual client has an existing single bowl custom solid surface sink with no divider and two drains. We wish to create a sink grid set to fit this sink beautifully.

Please see drawing of sink below if needed and make any necessary recommendations. The sink grid set has been designed at scale and to fit the sink measurements already.

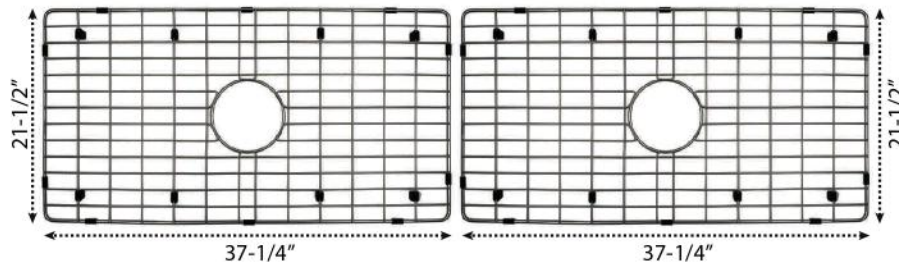

Our mutual client has also used these grid measurements and templated them into the sink and has confirmed the measurements are a great uniform fit.
